

Task Statement

 – sec.  – MB

Write a statement of a task in ynformatics.

Implementation details

It is **not** allowed to use external sources. This includes:

- the internet, including artificial intelligence
- ready-made tasks or ideas from any contests, including this contest
- saved files from other tasks
- materials which have not been created independently during the contest.

If it is established that the solution partially or fully uses external sources, it will be disqualified after the contest and will not count towards the final standing.

Scoring

It depends.
